META

- Leveraged HTML, CSS, and React-driven JavaScript to create visually captivating and user-centric websites. My focus on responsiveness and user-friendliness aimed to elevate the overall user experience and optimize site performance.
- I collaborated seamlessly with cross-functional teams in the development of the (Real Estate Web App capstone project), showcasing my adaptive and cooperative nature. This contribution played a pivotal role in achieving a successful project outcome.
- Actively participated in daily stand-up meetings, consistently sharing innovative ideas and providing timely progress updates. I actively facilitated discussions around challenges and obstacles hindering project advancement

Olasca Heritage Venture 2019-2023

Data Entry | Staff

- Collaborated with colleagues and team members to ensure consistent data entry standards and shared best practices. Contributed positively to the team's efforts in achieving accurate and reliable data records.
- Efficiently allocated time to complete data entry tasks within designated deadlines. Utilized prioritization techniques to manage workloads effectively, ensuring timely completion of assignments while maintaining data quality.
